DETAILED ACTION

1. This Office Action is in response to the amendment filed on 2/2/05. Claim 22 has been cancelled. Claims 1-21 and 23-25 are currently pending in the application.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10 and 13-14, drawn to a method setting up a call through multiple networks, classified in class 370, subclass 397.
 - II. Claims 11-12 and 15-21, drawn to a switch, classified in class 370, subclass 395.5.
 - III. Claims 23-25, drawn to a method of header stripping, classified in class 370, subclass 392.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a switch in another network, and invention III has separate utility such as a method used in another system. See MPEP § 806.05(d).

Art Unit: 2665

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, restriction for examination purposes as indicated is proper.

5. A telephone call was made on 6/1/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
